

Class work and Homework Calendar  
October 29~ November 9

<b>Date</b>	<b>In-class work</b>	<b>Homework</b> <i>(due the next day, unless otherwise noted)</i>
Monday 10/29	Finish up posters. Presentations.	On a 3x5 card, write 3 questions to ask our guest speaker on Friday. What have you wondered about with the space program at NASA? Example: Why is the space shuttle white and bottom black? (This is Mr. Sloan's question.)
Tuesday 10/30	Presentations.  Compiling questions as a class to send to guest speaker.  Introduce checking an unconscious victim. pg. 39	Interview an adult about "Shock". This is not electrical shock, but the reaction a human body has after an injury. Interview should last 5~10 minutes and include what "Shock" is, how to treat it, and why it must be treated quickly. Use pictures to help illustrate what you find out. Have the adult sign the paper you have written on.
Wednesday 10/31  Thursday 11/1	<b>Skill Check:</b> Checking unconscious victim.  Recovery Position pg. 46  SHOCK! pg. 34~35	No homework... guest speaker tomorrow. Come with your questions in mind.
Friday 11/2	Guest Speaker: Dennis Wesbecker NASA—Kennedy Space Center	Only one more week and you have finished ¼ of JH!
Monday 11/5	Review First Aid	Study for first aid test.
Tuesday 11/6	<b>FIRST AID TEST</b> (must score 16/20 to earn a card)	Relax... you are now a Red Cross 1 <sup>st</sup> Aid responder.
Wednesday 11/7  Thursday 11/8	Tests returned. Retake offered for those wanting a first aid card.  Transition to aviation... What do we know? What do we want to learn? Why are we studying aviation?	Congratulations! You are ¼ of the way through your JH experience.
Friday 11/9	NO SCHOOL!
