

Introducing Our New BCS Auction 2008 - Dog of the Year

Any family that gets this puppy (name to be announced) will feel like they've hit the jackpot! This adorable, four month old, red with white markings, **Miniature Goldendoodle** will be ready to go home with a wonderful BCS family! He and Andrea Woods owner of Cascade Kennels have been receiving guidance from Eastside's best, professional dog trainers, Becky Bishop and Katie Morrell and has already been started on basic commands like "sit", "down", and "wait".

But wait....there's more! He has been residing in the home of Andrea Woods and her son Brandon getting the personal one on one training in a home environment learning how to become part of a family member. The temperament of your puppy has been professionally tested and he is a sweet, loving little boy! This little love-bug is being socialized to kids, dogs, cats, and the sounds of the city streets. He also is **crate trained and has an established potty routine** which will help make the transition to your home easier for both you and him.

This puppy will come with all current vaccinations and a certificate of neuter. This gives any family a great start towards the enjoyment of this **new family member**. He will also come with a care package containing a crate, bed, food, treats, dishes, collar and leash, and toys. We have included your first training class for free with Katie Morrell at Cascade Kennels; this is a good way to start the bonding process with your new family member. Upon delivery you will receive a free private in home lesson with Becky Bishop from Puppy Manners. This will take away your jitters of being new parents.

In addition to all this you will become an elite member of Cascade Kennels that will initial you to discounts and V.I.P status on services.
