

PARENTSWEB-RENWEB INFORMATION - PLEASE READ CAREFULLY!!

We are excited to announce **RenWeb** - our new school management software. RenWeb is an Internet-based school management system that embraces the various needs of administration, staff, teachers, students, and parents. We are in the process of setting up RenWeb's **ParentsWeb** – a private and secure website that will allow you to see complete information specific to your child, while protecting your child's information from others. All you need is an Internet connection to view information such as tuition accounts, payments, attendance, grades, progress reports, transcripts, homework, missing assignments, and other useful school information.
