

Advanced Placement (AP) Classes

AP English Literature and Composition

AP United States History

AP Calculus AB and BC

AP Spanish

AP Chemistry (alternating years)

AP Physics B (alternating years)

High school offerings include nine year-long math courses and seven year-long science courses.

Capable students may take extra courses and/or may accelerate their mathematics and science programs beginning in junior high school.

Our standard academic course sequences (English, Math, Social Studies and Science) are designed to prepare students for university.
