

At BCS Preschool, we value and celebrate that each child is uniquely and individually created by God, fearfully and wonderfully made (Psalm 139).

When planning our curriculum, teachers are looking for themes and activities that will encourage children to be actively engaged in the learning process. We choose curriculum themes that are meaningful and relevant to young children. Our daily schedule provides time for children to have extended periods of time for actively exploring the environment as well as time for learning routine and social skills that are important to continued school success.
