

BCS ParentsWeb

RenWeb is an Internet-based School Information System that covers the various needs of administration, staff, faculty, students, and parents. For your convenience, RenWeb's **ParentsWeb** – a private and secure website – allows Parents to view academic information specific to their children. Parents can view information such as attendance, class schedules, grades, homework assignments, lesson plans, tuition accounts and payments, as well as other useful school information. **ParentsWeb** is where families will update their information online via **Web Forms** such as your Student's Medical Information, Emergency Contacts, Family Information, the Transportation Contract and more.
